GitHub: <https://github.com/Visakan2004>

Objective:

Motivated MCA student with a strong foundation in Artificial Intelligence, Deep Learning, and Data Analytics. Skilled in analyzing data, building machine learning models, and deriving meaningful insights to solve real-world problems. Passionate about continuous learning, innovation, and applying data-driven approaches to create impactful and intelligent solutions.

Education:

Master of Computer Applications 2025-2027

Kumaraguru College of Technology

B.Sc Computer Science With Data Analytics 2022-2025

KPR College Of Arts Science And Research

Soft Skills:

Time Management
Leadership
Effective Communication
Team Management
Adaptability

Technical Skills:

Python
Java
SQL
Programming in C
Microsoft Office
Canva

Project:

Real-time Vehicle Crash Detection and Alert System

Real time vehicle crash detection help us to identify the accident in the real time and report to the emergency numbers.

Code Generation Chatbot

The Code Generation Chatbot is an AI-powered tool that converts natural language queries into accurate code snippets using NLP and machine learning. It supports multiple programming languages and helps developers and beginners code more efficiently.

Certification:

- **Fundamentals of Data Analytics:** Completed a Fundamentals of Data Analytics course offered by CollegeConnect Programme of L&T EduTech
- **Oracle Cloud Infrastructure Architecture:** Completed the web-based training program entitled Oracle Cloud Infrastructure Architecture
- **Soft Skills:** Completed a 12 week course on Soft Skills from NPTEL.

Internship / Research:

- Presented Paper on ICDACT Crime type and occurrence prediction using machine learning
- Presented Paper on ICRTCSDA X-G Boost-based deep learning detect deep fake video

Personel Interest

- Swimming for fitness and discipline
- Cycling and maintaining an active lifestyle
- Traveling to explore new places and cultures
